- Teamwork
- Adaptability
- Problem-Solving
- Punctuality
- Multitasking
- Fast Learner

LANGUAGE

- English (Fluent)
- Bangeli (Native)

PRACTICE PROJECT & RESPONSIBILITIES

QuizWhiz AI - Web Application

Manual & Automation Testing Project

- Performed functional, UI, and validation testing for Login, Signup, Dashboard, and Cash Payments modules.
- Created and executed detailed test scenarios and test cases based on requirements.
- Identified, reproduced, and reported bugs to the mentor.
- Developed basic automation scripts using Python & Selenium for regression testing.
- Conducted cross-browser testing across Chrome, Firefox, and Edge.

BWAPP-Web Application

Security Testing Project

- Designed and executed security test cases to identify XSS and SQL injection vulnerabilities.
- Tested user inputs, forms, and APIs for improper validation and injection risks.
- Validated secure data handling between front-end, back-end, and database.
- Identified, documented, and reported security defects following OWASP guidelines.

Test Automation-Web Applications

Practice Websites from Razvan Vancea's Demo Collection

- Developed and executed automated test scripts for web applications using Selenium/Python.
- Performed functional, regression, and UI testing on multiple demo websites.
- Implemented test automation frameworks and utilized assertions for validation.
- Generated automation test reports to analyze results and improve test coverage.
